DISCOVER THE ACCESSORIES
AND APPAREL COLLECTION

A different breed. That's how we'd describe our sleds.
And the people who ride them. Where you see a landscape,
we see an escape. You like the silence of winter?

We prefer the sound of it. To us, what comes after the storm is definitely not the calm.
You can call us intense. For having multiple weather apps on our phone.

Or nerds for knowing the difference between Liquid Titanium and Monument Grey.
Actually, call us whatever you want.

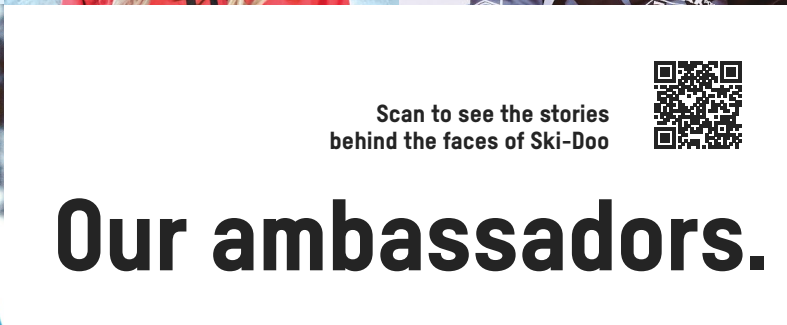

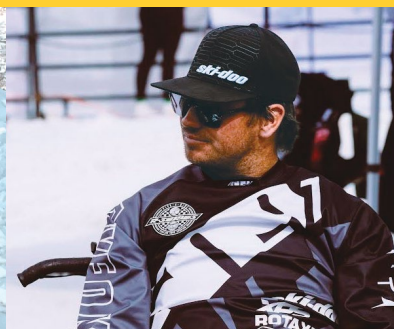

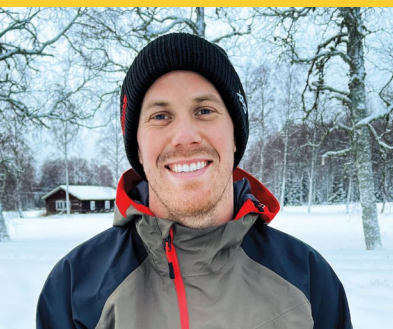

We won't hear it over the sound of our Rotax engine.

THAT *ski-doo* FEELING

RIDE FREE. LIVE LARGE.

The ultimate mountain experience is a Ski-Doo handlebar away. For extreme performance in the steep and deep, our deep snow models are the only option.

FREERIDE

Claim all extreme deep snow maneuvers as your own on the most powerful two-stroke turbo ever. With 180 horsepower all the way up to 8,000 feet, the Freeride leaves all competitors behind. This sled is stable and predictable at high speeds across all snow conditions, including bigger bumps. Welcome to the new standard.

SUMMIT

For the ultimate precise and predictable deep-snow sled with features sharpened for most technical terrains, choose the Summit X with Expert Package.

Effortless throughout the day, the Summit X is the lightest, most agile and nimble of its family with an unmatched degree of playfulness.

E-TEC® SHOT™ STARTER

Say goodbye to pull-starts on our deep snow sleds — at no significant extra weight! From now on, pull-start your snowmobile when you start riding, then use the SHOT starter push-button the rest of the day. The initial engine start charges a lightweight ultracapacitor, which will turn the magneto into a starter motor on SHOT starts. By turning the crankshaft, the Rotax E-TEC® does the rest: it injects the fuel and fires up the ignition. With just 2 lb (0.9 kg) extra, this Ski-Doo marvel is still 20 lb (9 kg) lighter than the typical electric start.

ACCESSORIES

Never waste an inch of snow this winter and equip your sled with accessories designed to help you find your personal powder paradise. Customize your deep snow snowmobile for the ultimate mountain experience.

DID YOU KNOW?

NEW Ultra-Light Deep Snow Seat offers a small shape for easy movement with a CVT belt storage area underneath. The seamless cover and redesigned base better protect from water intrusion with less stitching and a new front clip area that better seals moisture out.

Carry more of the downhill gear you need with the LinQ snowboard and ski rack. Add or remove one alongside the tunnel of your sled in seconds to fit whatever plan you have for the day. Whether you want to pack skis, boards or more equipment, this extra makes it extra easy.

MADE TO PUSH BOUNDARIES

**FREE FROM CONVENTION AND DESIGNED
FOR BRITISH COLUMBIA'S BACKCOUNTRY**

Comfort meets technology. We tested the BC Series gear in the mecca of big mountain snowmobiling — and it passed with flying colors in the most extreme and legendary environments. For gear that truly keeps up with you, look no further.

BC SERIES
BY *ski-doo*

ROLLING IN THE DEEP

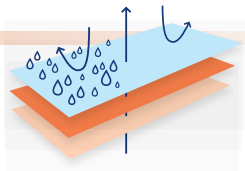

Built by the pros and for the pros, the BC Aspect Collection keeps riders like you dry everywhere you go. The fit of each item has been given the stamp of approval of our 3D garment engineers for maximum comfort and mobility. Add it all up and you get riding apparel so comfortable you'll forget you're wearing it!

3-layer shells for deep snow fun

sympatex®

3 LAYERS

Full mobility and freedom of movement are a given with our Sympatex shell. With a 3D fit optimized and coupled with our 3-layer lightweight stretch, it delivers comfort at every turn.

TECHNOLOGY WITH AN EDGE

sympatex®

DYNAMIC BREATHABILITY WITH SYMPATEX®

If you feel like the poreless compact Sympatex membrane changes the way you see performance wear, it's by design. Unlike other membrane technologies, Sympatex is based on a physical and chemical principle: the moisture from your body is absorbed, then evaporated, by the water-attracting (hydrophilic) part of the fabric. That's right, the water molecules are carried outwards along the hydrophilic molecular chains. How? The hydrophilic components of the Sympatex membrane swell with moisture, which provides space for water vapor transport and quick evaporation.

That's what you call dynamic breathability.

TRAIL NO ONE

MXZ X-RS WITH COMPETITION PACKAGE

A WINNING TRACK RECORD

Meet the lightweight sled with heavyweight results. Behind endless power, high-capacity race-proven features and easy agility, the Ski-Doo MXZ sleds give riders like you an edge: they've got motocross-like handling and agility, plus a Rotax engine to power you to victory.

CAN'T & WON'T STOP

RENEGADE ADRENALINE WITH ENDURO PACKAGE

AWAKEN YOUR INNER RENEGADE

The Renegade is bound to please all thrill-seekers. Let your mind wander on long, comfortable rides with a snowmobile built for premium performance. Whether you want to rack up miles on long adventures or crush the throttle and see what's lurking after every aggressive turn, the Renegade is up for it... even on the same day!

INNOVATION

RAS RX FRONT SUSPENSION

Equipped on all MXZ models, except MXZ Sport

Suspend your disbelief! With a race-inspired RAS RX Front Suspension, the most advanced sled on snow just gets better. Conquer every inch of any trail any time you ride with a snowmobile that flattens every corner: designed for rough trail conditions, the new front suspension keeps raising the bar.

PILOT RX SKIS

Equipped on the MXZ X-RS with Competition Package, the MXZ X-RS and the MXZ X

The all-new Pilot RX skis offer unrivaled control in all snow conditions. Built with an aggressive design, the skis deliver better grip and enhanced cornering for bold riders who love nothing more than whooshing through trails and telling others about it.

TRAIL ACCESSORIES

Make every mile count. Whether you need more convenience or functions, or just want to turn heads when you ride by, Ski-Doo trail accessories will meet your needs.

860202354

DID YOU KNOW?

Convenience is built into the new LinQ 1 + 1 Removable Rack. Install it quickly and easily with the LinQ system to be ready to go in no time!

YOU MAY ALSO LIKE

A friend can tag along. Mount a LinQ Passenger Premium Heated Seat (860202536), a **NEW** LinQ Passenger Premium Non-Heated Seat (860202917) or a Trail LinQ Passenger Seat (860202325) on your Ski-Doo sled to go along with the LinQ 1 + 1 Removable Rack.

NEW LIGHTS SYSTEM

LED SIGNAL LIGHTS

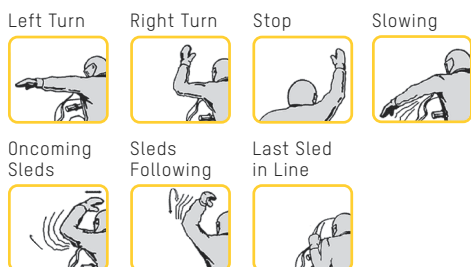

Shedding light on a new, innovative way to communicate with fellow riders on the trail. The LED Signal Lights keep your hands on the handlebars — where they should be. These lights are compatible with many models, stay visible in daylight and give peace of mind and control to all riders. The future of snowmobile communication is here to brighten your adventures.

HANDS-ON COMMUNICATION: HOW IT WORKS

Integrated in the handguard or windshield side deflectors of the sled, the LED Signal Lights use white, amber and green to create four modes and messages to oncoming riders. Whether you want to alert others that more riders are coming, that you're the lone rider, that a hazardous situation is looming or that you're last in the group, all you need is LED Signal Lights. Keeping your hands on the handlebars of your sled creates a safer riding environment for everyone, where messages are clear and all are in control.

NEW LED Signal Lights for Windshield (860202703) are available for windshields! If you're riding with a medium or a higher windshield, you can use this communication system too. Install it on Windshield Side Deflector Kits for medium and higher windshields to communicate with other trail riders in an innovative and confident way.

SNOWMOBILING HAND SIGNALS

3 COLORS, 4 MODES, 1 GIANT LEAP

NEW LED Signal Lights for Windshield
860202703

HOW TO USE IT:

Mode 1:

White running light = default.

Mode 2:

Amber (left side only) = Caution, riders behind me.

Mode 3:

Green (left side only) = Beware, I'm the last sled in the group, or alone.

Mode 4:

Amber (both sides, flashing) = Caution, there's a hazardous situation, = or Beware, I've stopped.

YOU MAY ALSO LIKE With a premade hole for convenience, the Accessory Switch Console (860202827) makes it easy to install LED Signal Lights.

RESPONSIBLE RIDERS PRESERVE WINTER PLAYGROUNDS

The Ski-Doo Responsible Rider program empowers riders to be aware of their surroundings. Consider safety, riding etiquette and your environment on every adventure — whether on the trails or in the backcountry. Play your part to preserve our sport for generations to come.

Learn more at ski-doo.com/responsible-rider

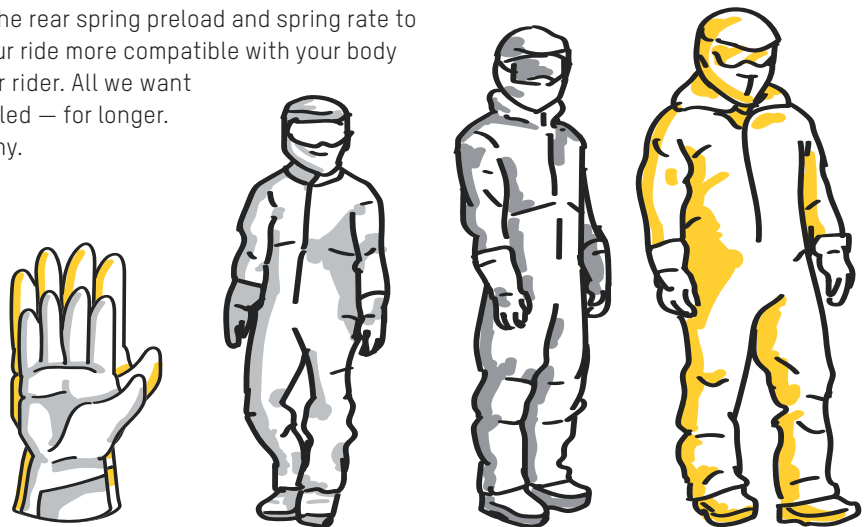

PERSONALIZED FIT

SEAMLESS MATCH WITH YOUR SNOWMOBILE

Become one with your beloved sled and customize it to your body size, weight or strength. At Ski-Doo, we understand that not all riders come in the same body type, so it's only right that our snowmobiles come with plenty of personalization options. Why is this so important? The better your sled fits your body with our REV platform and custom ergonomic accessories, the more comfortable your adventures will be. And the more comfortable you are when you ride, the longer you can stay on the snow. What's possible with your Ski-Doo sled? Switching your seat for a better riding position. Matching your handlebars to the size of your hands. Fitting the rear spring preload and spring rate to your weight. The end game here is to make your ride more compatible with your body and its characteristics and make you a better rider. All we want is to keep you in your happy place — on your sled — for longer. Rider and machine, together in perfect harmony.

Based on their size or weight, all riders may require adjustments.

If you have smaller or larger hands, you may require handlebar adjustments.

RIDE ADJUSTMENT:

■ Smaller or shorter riders. ■ Larger or taller riders.

SEAT

Ultra-compact design.
Ergonomically correct positions.

HANDLEBAR

Smaller diameter for a lighter, easier grip.
Less hand fatigue.

SUSPENSION

Adjust to your weight for optimal performance.

FOOTWELL

Lateral plates and toeholds to better position your foot.

KNEE PADS

Comfort and impact absorption.
Better knee grip.

SKI-DOO

TECHNOLOGY WITH A SAFETY TWIST!

Built into every Vasa model, our ExoFloat System helps riders hit the trail with peace of mind knowing that they're still safe if they fall into a frozen body of water. Bridging the gap between comfort and science, this garment features an exoskeleton that is fully mapped out with high-tech flotation panels. Plus, it's got mesh panels that evacuate the water. For optimal performance, make sure to wear the Vasa jacket and pants together, or go for the new Vasa+ jacket.

SELF LEVELING

Strategically placed Exofloat panels help assist you in self leveling to the surface

EXIT ASSIST

Mesh drainage to ensure you are not weighed down by the water that can inhibit exit

FLOAT ASSIST

Allow garment to assist you to the surface and exit the water quickly to safety

Scan here for more info

This is not a coast guard approved personal flotation device, this is flotation assistance technology. Always make sure bodies of water are safe for riding and know currents that may affect ice thickness before adventuring.

THE VIBE JUST GETS BETTER

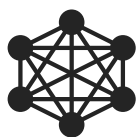

Now usable with most BRP helmets, the new upgraded version of the Vibe communication system keeps your fun rides rolling along.

The new Vibe Universal communication system delivers unparalleled connectivity and versatility when you ride. Fully BRP compatible with most helmets, this comm system might as well be an extension of the sled's ecosystem: use the 10.25" touchscreen display of your Ski-Doo sled to access unique functions to go above and beyond.

DID YOU KNOW ABOUT VIBE AND THE BRP GO! APP?

Ready, set, go! Set up and manage the Vibe universal communication system in no time directly in the free BRP GO! mobile app. You can check the battery level, change the device language, and much more!

VIBE COMMUNICATION SYSTEM BY BRP

BUILT TO BE ONE WITH THE ADVEX HELMET

Integrate this communication system seamlessly into your helmet to enhance your experience.

VIBE COMMUNICATION SYSTEM KEY TECHNOLOGIES

Built in partnership with Sena¹ for BRP, our comm system works as an extension of the vehicle. It fully integrates into the new Advex Helmet to let riders push forward worry-free. Fueled by the eLinQ system, this standout lets you chat, listen and ride all day long in comfort no matter how cold it is! If you prefer to ride without an electric Advex, that's no problem: this system has twice the battery size of the standard comm system!

MODULARITY

With the Exome Helmet, you don't need to take off your helmet anymore. To talk, eat or drink, just open the visor and expose your face by lifting the chin. Ride and socialize, and do it all without missing a beat.

AIRFLOW

The Exome Helmet lets you control your environment to control how comfortable you are. Customize the air intake with vents or suck out the moisture with a built-in system: this one provides a fog-free experience.

Performance:

WHO'S UP? YOU ARE, KID!

Inspiring tomorrow's riders

If you've always dreamed of raising a trail tamer or powder shredder who could follow in your tracks, we've got you covered. The Summit Neo and MXZ Neo snowmobiles can spark a new passion to ride for the next generation.

Because we know That Ski-Doo Feeling isn't something we're born with. With these sleds, it's possible to keep the tradition alive and passed down through generations. Never leave the little ones behind and share the fun, excitement and memories with the entire family!

ACCESSORY COLLECTION

Ski-Doo has the right accessories to empower the young riders of the future to conquer the cold season.

MXZ NEO

IT'S COOL TO STAY WARM!

Turn any winter day into a walk in the park

FRESH FITS FOR YOUNG RIDERS

Spoil the youngest members of your family with the Ski-Doo kids' apparel ahead of their next, great powder adventure. Our collection relies on trusted designs, colors and high-quality outerwear that make this the best gear around for young riders. Seriously, we kid you not.

PARTICLE JACKET FOR TEENS

Set them up for success with snowmobiling with a unique jacket designed for teen riders. With an inner fleece liner and Thermal Loft insulation, this item delivers extreme warmth and protection on the trail. Plus, a reflective striping keeps young riders visible — exactly the warm welcome to the sport they need.
